

The file directory for the database files in Windows XP are located in **C:\Documents and Settings\\Local Settings\Application Data**. The file directory for the database files in Windows 7 & 8 are located in **C:\Users\\AppData\Local**.

You may need to show hidden files within your file options. To show hidden files on your computer go to the **Tools** Menu in Windows Explorer and select **Folder Options**. Make sure this radio button is checked under the **View** tab:

Once you are at that file location you should see the following support files.

opensource-licenses.txt	9/23/2014 4:43 PM	Text Document	2 KB
pq.db	10/3/2014 10:59 AM	Data Base File	14,673 KB
pq.log.0	10/3/2014 1:43 PM	0 File	260 KB
pq.log.0.lck	10/3/2014 1:43 PM	LCK File	0 KB
pq.properties	9/2/2014 1:10 PM	PROPERTIES File	1 KB
